

LEGEND

- ⌋ Traffic Sign
- ⏏ Sequencing Arrow (Type "C")
- ▨ Truck Mounted Attenuator (TMA)
- ⚡ Amber revolving light or amber strobe light

1. This layout is intended to show traffic control requirements for milling and fog-sealing shoulder rumble strips.
2. Vehicles with amber flashing lights should be visible to the vehicle with amber flashing lights ahead and behind them.
3. For fog seal operation, place a 48" x 48" FRESH OIL sign (W21-2) at the beginning of the work area. Place additional FRESH OIL signs at the end of each ramp (or intersection) and periodically through the work area so that signs are no more than 2 miles apart.
4. For milling operation, Work Vehicle #1 is debris removal equipment and Work Vehicle #2 is milling machine.
For fog seal operation, Work Vehicle #1 is fog seal truck and Work Vehicle #2 is not used.
